MEMORANDUM FOR: Executive Officer to the DDA

FROM:

25X1

Director of Information Services

SUBJECT:

Request for Comments on OMB Sponsored Draft
Legislation: "Confidentiality of Federal
Statistical Records Act"

REFERENCE:

Multiple addressee memorandum from OGC,
dated 29 March 1982; Same Subject (DDA 82-0833)

1. The Office of Information Services is not aware of any Agency need to obtain individually identifiable statistical information from other government agencies. Therefore, we do not believe this Act would cause any problems if it barred the Agency from obtaining such information.

2. Similarly, we do not know of any Agency files that could be characterized as "protected statistical files (PSF's)." Therefore, we see no basic problem if the Act forced such files to be released in certain circumstances. Nevertheless, on the possibility that the Agency might establish such files in the future, or on the chance that the interpretation of "PSF" might change, we suggest Section 110(f)(6) be expanded by adding "or Executive order" between "statute" and "in." Further, if we did establish PSF's, Section 106(b) could give us a problem if the designations of certain Agency files are in themselves classified.
